

Choptank Complex Habitat Focus Area

Harris Creek
Oyster Sanctuary

Restoration Blueprint

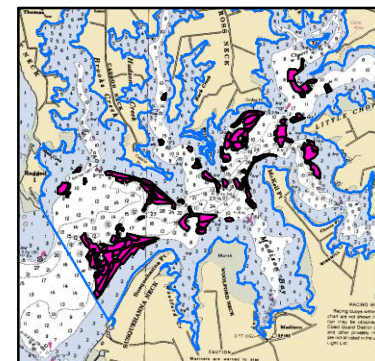

405 Acres

Tred Avon
Oyster Sanctuary

Restoration Blueprint

218 Acres

Little Choptank River
Oyster Sanctuary

Restoration Blueprint

503 Acres

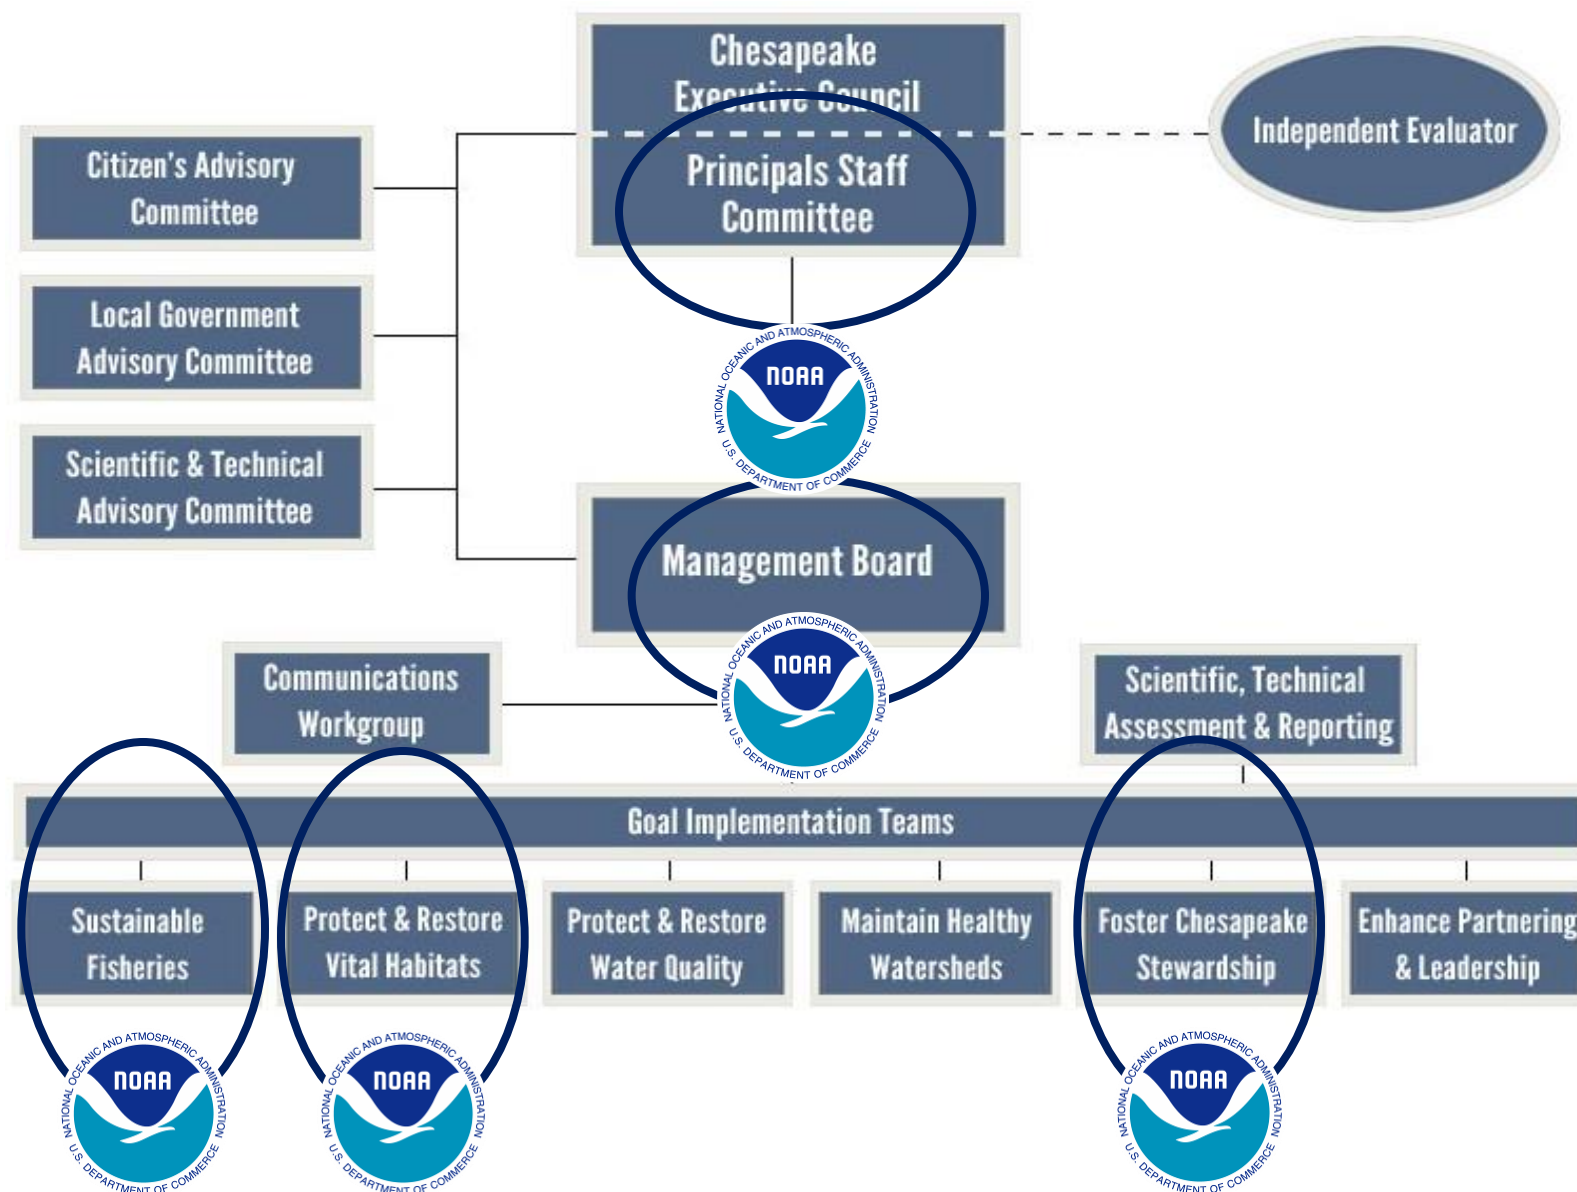

Choptank Complex Objectives

- Restoration and protection – oysters, living shoreline, dam removal / fish passage
- Build and sustain important fish populations (including striped bass, shad, herring, American eel and other species)
- Document and quantify the benefits oyster reefs and associated habitats provide
- Long-term community engagement

Chesapeake Bay Program Connections
